Dear Bert,

Just a quick note, to express our appreciation of your great product "ProTek Elastoprime & ThermCote A-PW5, Ponding Water Formula." Our staff applied this Seamless "Cool Roof" to our office buildings, old, flat, and checked, tar roof eight years ago. We have been very impressed with it durability and efficiency of this product. It has required no maintenance other than a cleaning every few years. Our roof remains water tight, cool to the touch and has provided a noticeable reduction in ceiling temperature from reflected heat.

With great appreciation.

Sincerely,
